

SKILLED
Award

Would your high school students like to win \$1,000 for their creative ideas?

**\$1,000
GRAND PRIZES!**

S. M. Wilson has partnered with the Missouri School Boards' Association (MSBA) and STL Works to honor a student or student group who exemplifies the mission of SKILLED,

"to inspire the future of construction."

tinyurl.com/SKILLED Awards

Would your high school students like to win \$1,000 for their creative ideas?

Your students can be eligible to win \$1,000 for their creative ideas on how they would inspire their local community.

Mission/Challenge for Students

Think of a time you were inspired as an elementary student to build or create something. Were you part of a robotics team? Did you design and build a birdhouse? Did you create a Rube Goldberg Machine? Did this experience want to make you learn more about science, technology, engineering, art or math? Are you now considering a career based on this inspiration?

Now's your chance to think of an idea that inspires others in your school, district or community and potentially win \$1,000 for submitting that idea.

Your challenge is to imagine you have up to \$500 to create a process, lesson, activity or product (herein called the "Project") that engages elementary school-age students in your community with science, technology, engineering, art and/or math.

All in all, you just need to come up with an idea to inspire the next generation. Then write about your project and record a video. Upload your written idea description and video at tinyurl.com/SKILLED Awards.

DEADLINE: 10/7/22
